Dr Graham Marshall
General Manager - An Meá
16/101 Locomotive Workshop
Australian Technology Park
Eveleigh NSW 1430

Dear Graham

Thankyou for your ongoing support and professional advice in regards to the HAZ & ZARD training activity.

Apprenticeships Western Australia have been utilising this safety awareness activity in a wide variety of ways that have provided a strong benefit. HAZ & ZARD has now been incorporated into our recruitment process for Oil and Gas Apprentices and will be expanded into other industry's.

HAZ & ZARD has also been included in our induction for Oil and Gas apprentices and will be further utilised to maintain a heightened awareness throughout the apprentices employment.

I would be more than happy to discuss our usage of HAZ & ZARD to other employers to promote the benefits of HAZ & ZARD training.

Kind Regards

Peter Nolan
