To Whom it May Concern

Haz & Zard Safety Awareness Training

I confirm that Newfield have purchased and are using the Haz & Zard safety awareness training. We found it:

- Involves personnel at the coal face;
- Is not too technical;
- Is a time saver;
- Is stimulating for safety discussions;
- Is powerful;
- Evokes public commitment to safe work practices, and
- Supports an established Management System.

Yours sincerely

A handwritten signature in black ink that reads "J Shand".
