

JUSTIN STRHARSKY

Marketing and Brand Manager

Justin Strharsky has over 14 years of international business experience providing project management, public relations, and marketing services to the healthcare, entertainment, service and high-technology industries.

Justin is responsible for developing and implementing marketing and branding strategies for the An Meá group of companies. Justin also acts as General Manager of Haz & Zard Hazard Management, where he looks after the Haz & Zard family of hazard management training products.

Prior to relocating to Perth, Australia, Justin helped to manage An Meá Sakhalin, in Russia. While in Sakhalin, Justin developed an HSE training business with more than \$250,000 USD revenues over a 1.5 year period and supervised a staff of eight communications and administrative professionals.

Justin has managed projects that delivered customized electronic training solutions to Sakhalin Energy Investment Company (SEIC). These products are used by SEIC to provide training on their HSE Management System, environmental responsibilities, and chemical safety. To date, more than 1200 employees and contractors have used these tools. Justin also managed safety communications projects for Exxon Neftegas Limited.

Before moving to Sakhalin, Justin was part of the management team of the Family Medicine Clinic at the Alaska Native Medical Center in Anchorage, Alaska. In addition to supervising medical and administrative staff, Justin managed projects concerning customer service, improvements to the revenue cycle, and a recruitment and training program. Justin also participated in the clinic's application process for the Baldrige National Quality Award.

Justin has owned businesses in Alaska and the Czech Republic, has produced a concert and an album, has roasted coffee, and has written documents on enterprise management software solutions.

Justin holds a degree in Global Communications from the University of California, Santa Cruz.
