

MERRY WU Accountant

Merry Wu comes to An Meá's Sydney office with more than five years experience in accounting and financial management.

Merry obtained her Bachelor of Commerce Degree from Shandong Economic University in China, and began her career conducting financial audits for the Chinese government, a role which saw her travelling to Singapore and Japan. During this time she became a Certified Practising Accountant and an International Certified Internal Auditor.

In 2004, Merry and her family migrated to Australia and she wasted no time obtaining accounting qualifications in her adopted country. First, she obtained an Advanced Diploma in Accounting with Distinction from NSW TAFE Institute, and in November 2007 she will graduate from Macquarie University with a Master of Commerce in Accounting and Finance. She is also working towards attaining the status of CPA in Australia.

Before joining the An Meá team, Merry worked as an accountant for a Sydney-based construction company.
