

WILLIAM THIEL
Director

William Thiel is a Director of An Meá. He has over 20 years of international experience as a Professional Engineer and holds professional certification in both Australia and the United States. He holds a Bachelor of Science Degree in Chemical Engineering from Montana State University.

William has worked and lived internationally in several locations providing services to companies in more than 10 countries. William's industrial experience includes previous employment with 3M as a Senior Environmental Engineer in chemical and manufacturing facilities in the US and with Caltex as a Senior Environmental Engineer in refineries and marketing facilities worldwide. This experience includes equipment design, testing and troubleshooting, regulatory affairs and HSE system implementation.

William has provided equipment, troubleshooting and design at publicly-owned wastewater treatment plants in New South Wales (NSW), technical studies for the NSW Department of Environment and Conservation and provided auditing and advice for the government of Kiribati.

As a consultant to industry, William has provided expertise to large industry (i.e. Petroleum Development Oman, Sakhalin Energy Investment Company) and small (Cameron Castings, Anglo Metals, Patrick Charles) in areas such as equipment design and installation, HSE management system development and implementation, HSE case development, permitting, and regulatory compliance.

From 2004 through 2009, William co-founded and directed the An Mea operations in Sakhalin, Russia. This Russian company of 30 people services the major and minor industrial clients there. While there learned to speak Russian, and met his wife Tatiana.

William has also provided paid and pro bono expert services to the legal community and non-governmental organisations including the Sierra Club and the Montana Environmental Information Centre. He has also been actively involved in the development of public policy in the development of air toxics, and carbon dioxide emissions regulation in Australia since 1999.
